ANNOTATSIYA

Milliy o'zlikni anglash milliy tiklanish va milliy yuksalish jarayonlarida muhim o'rin tutib, shaxs va jamiyatning ma'naviy kamolotida, fuqarolik jamiyatining moddiy-ma'naviy asoslarini mustahkamlashda ulkan ahamiyat kasb etadi. Milliy o'zlikni anglash millat ma'naviy kamolotining muhim belgisidir. Milliy o'zlikni anglash millatning o'z tarixi, madaniyati, milliy qadriyatlarini bilishi, milliy urf-odat va an'analarini e'zozlashi, ajdodlarining ma'naviy merosidan bahramand bo'lgan holda uni asrab-avaylab kelajak avlodga qoldirishi kabi xususiyatlar tushuniladi.

Inson ijtimoiy mavjudot sifatida talqin etilganda, uning mustaqil tafakkurga, e'tiqodga, bunyodkorlik qudratiga, o'zgarlar va butun borliq oldidagi mas'uliyat tuyg'usiga ega ekanligi nazarda tutiladi. "Men kimman?", "Bu yorug' dunyoga nima uchun keldim?", "Menga ato etilgan buyuk ne'mat – hayotimni nimalarga safarbar etmog'im lozim?". Inson borki, ertami-kechmi ana shu savollarga javob izlay boshlaydi, kamolot sari yo'l oladi. Bu yo'lni – o'zlikni anglash deb aytish mumkin. O'zligini anglagan yoki anglay boshlagan kishigina shaxs darajasiga ko'tariladi. Demak, o'zlikni anglash, avvalo har bir insonning shaxsi, alohida "men"i bilan bog'liq. O'zlikni anglash masalasiga faqat bugun e'tibor qaratilayotgani yo'q.

Kalit so'zlar: *ta'lim, milliy o'zlikni anglash, barkamol shaxs, talabalar, ma'naviyat, ommaviy madaniyat.*

ANNOTATION

The realization of national identity plays an important role in the processes of national revival and national growth, it is of great importance in the spiritual maturity of individuals and society, and in strengthening the material and spiritual foundations of civil society. Understanding national identity is an important sign of a nation's spiritual maturity. Understanding national identity is a nation's knowledge of its history, culture, and national values, honouring national customs and traditions, enjoying the spiritual heritage of its ancestors, and preserving it for the next generation. features such as leaving are understood.

When a person is interpreted as a social being, it is assumed that he has independent thinking, faith, creative power, and a sense of responsibility towards others and the whole being. "Who am I?", "Why did I come to this bright world?", "What should I do with the great blessing given to me - my life?" There is a person who sooner or later starts looking for answers to these questions and goes towards perfection. This path can be called self-awareness. Only a person who realizes or begins to realize his identity rises to the level of a person. Therefore, self-awareness is first of all related to the individuality of each person, the individual "I". It is not only today that attention is paid to the issue of self-awareness.

Keywords: *education, awareness of national identity, well-rounded personality, students, spirituality, popular culture.*
